## EDUCATION

**Institute of technology in Indore, Madhya Pradesh**

2020-current

BE | Current CGPA - 8.53

**Ideal Cambridge Higher Secondary School**

2018-2019

High secondary | Score 78 %

**The Prime Academy**

2016-2017

Secondary School | Score 82 %

## EXPERIENCE

**JMD studio | Software Development | [BUZZ LIVE](#)**

08/2022-11/2022

- I'm working as a backend team member, working on two major projects one is academic and the other Buzz Development where in Buzz I'm mainly working on the discoverability part and bug solving.
- Tech Used : **React.js, node.js, Redux , MongoDB,Authkey,HTML,CSS,ThunderClient**

**Personify | Machine Learning**

- During the Internship, we design a Fashion Recognition model using Deep learning, including Confusion matrices, a summary of the model

## COMPETITIVE CODING

- Leetcode MAX RATING(1819) <https://leetcode.com/26shaksham/>
- 5 star on HackerRank (Problem solving)<https://www.hackerrank.com/shakshamneekhra1>
- Pupil Codeforce (MAX RATING 1306) <https://codeforces.com/profile/shaksham26>
- 105 rank in CodeFiesta by IIIT Nagpur
- INNOVATE INDIA CODING CHAMPIONSHIP,coding ninja (LEVEL - 2)

## PROJECTS

**Buzz - Meet People Around You | [Download](#)**

- Whether you're an introvert or an extrovert, humans have a natural urge to connect with people who catch their attention. However, in many cases, people struggle to make that connection happen.
- You can meet people within a 300-mile radius of your location by clicking a single button
- Tech Used: **MongoDB, Nodejs, Authkey(OTP services)**

**Online Fashion Store | [Live Preview](#)**

01/2023-present

- Customers can select products, create wishlists, and purchase items
- We use nodemailer to verify emails, and provide filtering and product suggestions to aid in selection
- We have different products available for men, women, and children, with different schemas to store data for user convenience.
- Tech Used: **ReactJS, MongoDB, Nodejs, Html, CSS, bootstrap**

**Portfolio | [Live Preview](#)**

07/2022 - 07/2022

- My portfolio showcases my skills and provides information about me. It is hosted on GitHub Pages.
- **Tech Used - ReactJS, MariaDB, Nodejs, Html, CSS, bootstrap**

**Clubo | [Github](#)**

03/2022 - 06/2022

Club management system

- Our platform helps manage events and teams, making it easier for organizations like Ecell to assign work and streamline management
- Adding Events, members, and teams all are dynamic
- Delete and Update Events and Member detail
- **Tech Used - Reactjs, Nodejs, CSS, Express,MariaDB,Rest-API**

**Collage Admission Blog | [Github](#)**

08/2022-09/2022

- Large universities with multiple colleges may find it challenging to inform every student about admission updates and deadlines. However, a College Admission Blog (CAB) could be an effective solution to reach all students with a simple message.
- **Tech Used -MariaDB,Nodejs,React.js,HTML,CSS**

## Technical Skills

**Languages:** C++,ReactJs, ExpressJs, NodeJS, HTML,CSS, JavaScript ,Python

**Databases:**MySQL,MongoDb , MariaDB

**DeveloperTools:**Git,VSCode,ThunderClient,ARC,HeidiSQL

## ORGANIZATIONS

**ACM**

05/2022 - present

member of ACM IET DAVV

**NSS**
